LIVE refresh!

The image shows a side-by-side comparison of a code editor and a web browser. On the left, the Brackets editor displays the HTML code for 'index.html'. The code includes a doctype, lang="fr", charset="UTF-8", title="Document", and a link to 'stylesheet.css'. The body contains an h1 'Brackets rulz !' and a paragraph of Lorem Ipsum. Below the paragraph, there are three `<div>` elements with the text 'live refresh', 'survol img', and 'survol couleur'. On the right, a web browser window shows the rendered page. The h1 is highlighted with a blue border. Below it, the Lorem Ipsum text is displayed. At the bottom, the text from the `<div>` elements is shown, demonstrating the live refresh feature where the browser updates the content as the code is edited.

A photograph of a man with a grey beard and mustache, wearing a blue shirt and a patterned tie, sleeping with his head tilted back in a lecture hall. Other people in the background are also sleeping or resting their heads on their desks. The text 'MERCI, BISOU' is overlaid in large white letters with a decorative flourish above the 'S'.

MERCI, BISOU
